

1

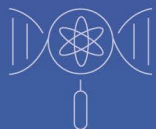

DNA Reading

- ▶ Sanger Sequencing
- ▶ Illumina NGS
- ▶ Whole Plasmid Sequencing
- ▶ PacBio Sequencing

2

DNA Writing

- ▶ Oligo Synthesis
- ▶ Gene Synthesis and Cloning

3

DNA Production

- ▶ Plasmid DNAprep
- ▶ Single-stranded DNA synthesis (up to 20 kb)

4

DNA Expression

- ▶ Antibody Expression
- ▶ Protein Production

QUINTARA

Quintara stands as a nationwide gene sequencing leader, spanning California, Massachusetts, Colorado, Texas, Maryland, and beyond. **We are committed to delivering the best service to the life science community and ensuring the fastest turnarounds so your research can move forward faster.**

CALIFORNIA

Service Overview

We Go Fast
 You Go Forward

DNA Reading

DNA Writing

DNA Production

DNA Expression

QUINTARA

DNA Reading

Sanger Sequencing

Sanger sequencing services that span your entire workflow – delivering results you can trust within hours.

Built for Speed and Accuracy

Illumina NGS

Personalized sequencing services as fast as 3 business days.

From Design to Data Analysis

Whole Plasmid Sequencing

Sample processed daily. Results available next morning.

PlasmidExpress

PacBio Sequencing

A complete solution for Single-Molecule, Real-Time (SMRT) Sequencing with fast turnaround time.

From Design to Data Analysis

DNA Writing

Oligo Synthesis

Substantial purity and low truncated sequences.

As fast as 1 day

Gene Synthesis and Cloning

Provide 100% accurate DNA sequence from hundreds to thousands of base pairs with industry-leading turnaround time.

Unisemble™

ExoExp Oligo Synthesis

Quintara Biosciences is excited to introduce the NEXT-DAY EcoExp Oligo Synthesis service to our loyal customers like you, designed to further enhance your experience with us and help you achieve your goals more efficiently.

Next-Day Delivery

DNA Expression

Antibody Expression

Protein Production

DNA Production

Plasmid DNAprep

Fast turnaround time, flexible scales, and industry-leading low endotoxin level.

Turnaround Time 2-3 Days

Single-stranded DNA Synthesis

Custom synthesis of ultrapure Single-Stranded DNAs up to 20 kb in length.

Up to 20kb in Length

DNA

ZY Cloning

In vivo HAC cloning system with next generation molecular cloning kit. Fast, easy, efficient, and accurate service.

Reaction time as fast as 89 seconds

MutLab

MutLab™ is a rapid and cost-effective service to convert innovative design of mutagenesis to real mutation libraries on DNA molecules.

An express and flexible mutagenesis service
