

HTP Recombinant Antibody

Wide Range of types | Fast Turnaround | Tailored in quantity

▶ Quintara Accelerates Your Antibody Discovery

Quintara high-throughput platform can deliver a range of purified antibody products—including IgGs, Fab, scFv, VHH, di-scFv antibodies from micrograms to milligrams. This service enables fast and small-scale antibody expression, with delivery in as fast as 2 weeks.

▶ Service Highlights

Wide Range of types

IgGs, scFv, Fab, VHH, di-scFv and more

Fast Turnaround

2 weeks, from gene to antibody

Tailored in quantity

From mL to L

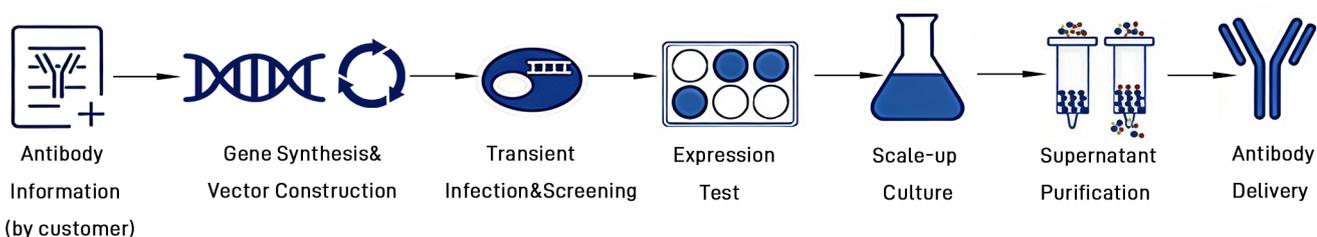

From ug-mg

Large Capacity

1,000 antibody expression/month

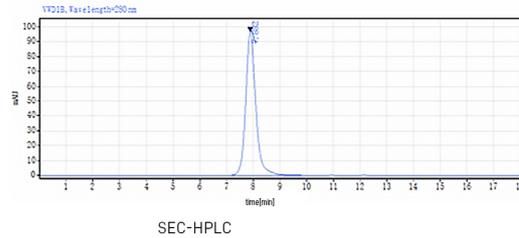

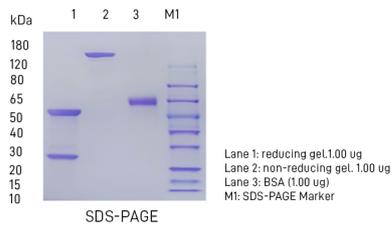

▶ Workflow

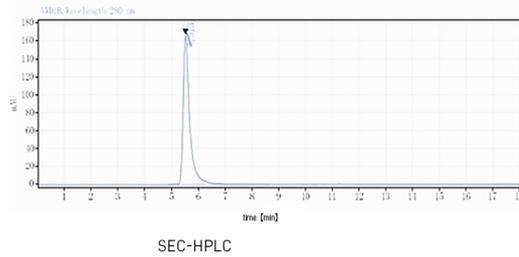

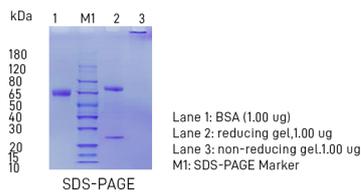

Case Studies

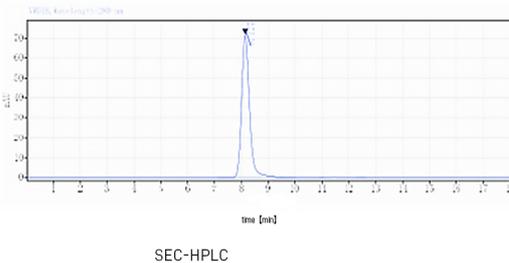

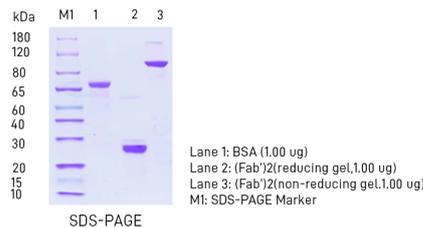

IgG expression: Purity (SDS-Page)>99%, Purity (SEC-HPLC)>99%

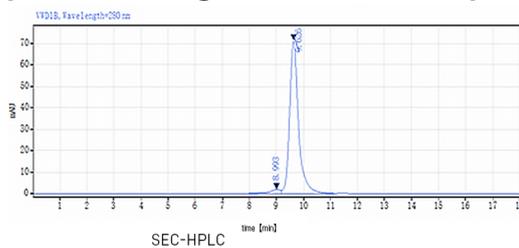

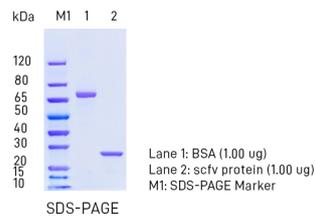

IgM expression: Purity (SDS-Page)>95%, Purity (SEC-HPLC)>99%

F(ab')₂ expression: Purity (SDS-Page)>95%, Purity (SEC-HPLC)>99%

scFv expression: Purity (SDS-Page)>95%, Purity (SEC-HPLC)>95%

VHH expression: Purity (SDS-Page)>95%, Purity (SEC-HPLC)>99%
