

Whole Plasmid Sequencing - Express

\$4.99/sample

Ideal alternative to standard whole plasmid sequencing, providing fast and convenient sequencing for plasmids up to 10kb. This service is available at a cost-effective rate of just \$4.99 per sample with overnight turnaround.

Industry-leading Technology

Nanopore sequencing combined with Quintara's proprietary technology

Affordable Price

\$4.99/sample at rate for all sample types, no hidden fees

6 Types of Samples

- Plasmid DNA (10 μ L+, 50–100ng/ μ L)
- RCA Product (10 μ L+)
- Agar Plate
- Bacterial Overnight Culture (10 μ L+)
- Colony Suspension (10 μ L+)
- Glycerol Stock (10 μ L+)

Fast Turnaround

Overnight data delivery for all sample types

Easy submission

No primers needed

Receive a \$5 Amazon gift card when you register a Quintara account
