

Gene Synthesis and Cloning Services

Deliveries 100% accurate DNA sequence

Unissemble™

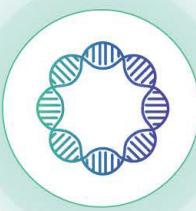

Quintara Biosciences is proud to offer Unissemble™ Gene Synthesis and Cloning Services for your discovery and pre-clinical research. The Unissemble™ services provide 100% accurate gene synthesis and cloning work from hundreds to thousands of base pairs with industry-leading turnaround time.

Deliver 100% accurate DNA sequence up to 5 kb within **ONE** week

Free pre-made human, mouse and rabbit antibody vectors for variable region cloning

Deliver 100% accurate DNA sequence from 5 kb to 20 kb within **THREE** weeks

Endotoxin-free DNA (<10 EU/mg) preparation up to **10mg DNA**

Simple or complex sequences, we have you covered

Full plasmid sequence provided

About Quintara

Quintara stands as a nationwide gene sequencing leader, spanning California, Massachusetts, Colorado, Connecticut, Maryland, and beyond. We are committed to delivering the best service to the life science community and ensuring the fastest turnarounds so your research can move forward faster.

- Sanger Sequencing
- Amplicon NGS Sequencing
- NGS Service
- Gene Synthesis and Cloning

- Whole Plasmid Sequencing
- Oligo Synthesis
- PacBio Sequencing
- Virus Packaging

- Single-Stranded DNA Synthesis
- DNA Prep
- Cell Line Engineering
